I request that these comments be made a part of the official record.

Violates the Nuclear Waste Policy Act of 1982.

- The fundamental concept of geological disposal as outlined in the act was for waste isolation. Instead the DEIS describes and "evolving" facility design based on delayed release of radioactivity by means of engineered barriers, so the site will leak. How much and when is not clear.

No Yucca Mountain

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.
